✓ **Less breakdowns**

✓ **Less expense**

✓ **Less hassle**

Image placeholder

When unexpected breakdowns happen:

- Production stops.
- Your focus shifts.
- You have to deal with repairs or replacements.
- You find out “cheap” service is actually costing you.

You buy equipment to get the job done.
It should never be the reason you can’t.

You deserve a partner that not only *prevents* breakdowns before they happen, but works to give you:

Guaranteed Up-Time

No other service provider promises this. They make money when your equipment breaks. We keep your equipment working so you can too.

Major Cost Savings

Top quality planned maintenance means repair, rental, and replacement costs go down. When your forklifts are efficient, so is your warehouse.

A Safer Warehouse

Unserviced forklifts can cause costly inventory damage, but staff are more likely to be injured using a forklift that’s not working properly too, causing a massive expense.

We know you hate thinking about forklifts.

Our clients used to feel the same way, and they used to think all service providers were the same.

Here’s what they know now: **Southern States Toyotalift is different.** We’re the *only* ones that offer plans beyond the bare minimum maintenance to protect your equipment, guarantee up-time for your warehouse, and keep your forklifts working, so you can too.

*** Ask us about the Complete Protection Uptime Guarantee.**

Here’s how it works:

Icon/Image

1. You get a plan.

Based on type of equipment, hours of usage, and application, we’ve got options for you.

Icon/Image

2. We get to work.

Our certified technicians care for your equipment on a convenient planned schedule, instead of waiting for issues to happen and production to stop.

Icon/Image

3. You quit worrying about forklifts.

Your equipment keeps running and doing its job, so you can do yours.

[GET A PLAN](#)

A Toyota forklift should only be trusted to genuine Toyota parts and service.

The other guys’ planned maintenance? A quick in and out that leaves you vulnerable.

Ours? A comprehensive service that protects you, your equipment, your operation.

Sounds more expensive right? Nope. Not in the long run.

We’ve saved our customers hundreds of thousands or even millions of dollars just by keeping their forklift fleet healthy.
